in — 1 Report
1 Estimate

Returned, with compliments, to the General Secretary to Government

1 (2) The supplemental estimate amounting to Rs 4,941/- referred to is herewith put up It will be seen from the general abstract of the estimate that all the items in it are new items not provided for in the original sanctioned estimate, but subsequently found necessary for the efficient working of the plant These items have not been necessitated by any neglect on the part of the staff

2 (3) The work has been carried out and it has added considerably to the efficiency of the plant

3 (4) The supplemental estimate may be sanctioned and the question of apportionment of cost between Government and Municipality also settled

12 Govt in their order No L6448-51/Rl 24-25-48 dtd 12th April 1926 accorded Sanction to an estimate amounting to Rs 75,000/- for further improvement of the Shimoga Water Works and the Estimate was ordered to be financed as follows:-

- Grant in-aid from Govt	Rs	25,000
Loan from Govt	"	25000
From the Sale proceeds of Sites in the New Extension formed at Shimoga	"	25,000
Total	"	75,000

13 In regard to the question of finance the present Supplemental estimate, the Second Member has been pleased to direct as follows:-

" the Cost may be met in the same manner as the Cost of the plant" (Vide para 11 supra)

14 In regard the apportionment of the Cost of the original plant, no proportion was fixed by Govt as seen from para 12 supra

To be Remembered for orders.

From the above it is clear that Govt has to give 1/3 rd of the Draft and will be final.

RR 25/1/29

Sir

I have the honour to state that Government in their Order No L 6448-51/Ll 94-25-4 dated 12th April 1926 sanctioned an estimate amounting to Rs 75 000/- for improvement of the Water Works at Shimoga and a sum of Rs 50 000/- was advanced out of State Funds half of which was allowed to be treated as a loan and the other half as a grant-in-aid for working out the scheme The Municipal Council have so far paid Rs 70 000/- towards the improvement works which includes the Government grant of Rs 25,000/- as also the loan amount of Rs 25 000/- and there remains only a balance of Rs 5 000/- still to be paid on this account which will be adjusted in the course of two or three months In the meanwhile the Executive Engineer Water Supply Division has sent a supplemental estimate for Rs 4941/- the necessity for which has been explained in detail in the report accompanying the estimate The items of work referred to therein are as detailed below --

(1) Providing an independent 6" suction pipe for the new big pump of 20 000 gallons capacity Rs 1066/-

(2) Providing 4" independent suction pipe for the new small pump of 12 000/ gallons capacity 465/-

(3) Providing a C I drain pipe for the pump pit 280/-

(4) Shifting old filters including over hauling and renewing filtering materials and fittings for the damaged one and cost of filter bed. 377/-

(over)

(5) Extra length of 5" C I pipes for the rising main and cost of 8" supply pipes for big filter Rs 2253/-

The Executive Engineer in sending these estimates has stated that these works had to be done in order to complete the Water Supply improvements undertaken and to make the whole scheme efficient

2 The estimates were duly considered by the Shimoga Town Municipal Council at their meeting held on 24th November 1928 They are of opinion that although the work was done in the interests of securing an efficient supply of water to the Town the expenditure cannot be paid out of Municipal Funds in view of the fact that the Municipality is heavily burdened with other debts, to repay which, large sums are being set apart annually out of their ordinary resources Further the Municipality has gone as far as it can in having undertaken an expenditure of Rs 50 000/- towards this project and they have further to improve the distribution system at considerable cost (A copy of the Council's resolution is submitted herewith for reference) It is therefore prayed that the Government may be graciously pleased to order that this small additional expenditure be met out of State Funds

3 In this connection I beg to submit that the finances of the Municipality are generally low and it would not be possible to expect any improvement till the Water Supply is ensured to all parts of the newly formed extensions in which houses are springing up rather slowly

4 There is also a great need for improving the distribution system without which the benefit of the new installations cannot be said to have been fully realised by the Public

5 Under these circumstances I request that Government may be pleased to bestow their sympathetic consideration to the representation of the Municipal Council and to accord sanction to debit the additional cost to the State Funds as a special case I have the honour to be

Sir
Your most obedient servant

DEPUTY COMMISSIONER

PROCEEDINGS OF THE FOURTH ORDINARY GENERAL MEETING OF THE SHIMOGA TOWN MUNICIPAL COUNCIL HELD IN THE TOWN HALL ON SATURDAY THE 24TH NOVEMBER 1928 AT 8-30 A M

****

Subject No 7

Resolution No 3 dated 26th September 1928 passed by the Managing Committee proposing that in view of the poor finances of the Municipality Government may be requested to kindly meet out of State Funds the amount of the supplemental estimate for Rs 4941/- for Water Supply Improvement works - received from the Executive Engineer, Water Supply Division Bangalore

THE RESOLUTION OF THE MANAGING COMMITTEE IS APPROVED The Government may be requested to kindly meet this additional expenditure out of State Funds in view of the fact that the Municipality is heavily burdened with other debts to repay which large sums are being set apart annually out of the ordinary resources Further the Municipality has gone as far as it can in having undertaken an expenditure of Rs 50,000/- towards this project They have to further improve the distribution system at considerable cost In these circumstances the Council pray that this small additional expenditure be met out of State Funds
